Environmental Policy

Reozone Pty Ltd (Reozone) is committed to the protection of the environment and the reduction of environmental impacts from our operations.

This commitment applies to the whole of our business covering the supply of reinforcing and building materials to the construction industry that combines:

- The production of reinforcing bar for concrete reinforcement by cutting and bending coil and bar;
- The supply of steel reinforcement mesh and bar related accessories; and
- The services related to scheduling of reinforcement products.

As part of its commitment Reozone will:

- Comply with ISO 14001 the International Standard for Environmental Management Systems and with all applicable legal and other requirements to which we subscribe.
- Take practical measures to prevent pollution and to continually improve our environmental performance.
- Establish programs to achieve agreed environmental targets and objectives.
- Plan for, and conduct site operations, in a manner that safeguards health and safety whilst minimising environmental impacts.
- Communicate our environmental policy to employees, suppliers, contractors and other interested parties to encourage participation in achieving our environmental objectives.
- Promote this commitment by making this policy available to staff and the public.
